

Demidius Thorne

Domain-Constrained Hermes Obedience Guide

Luck first. Freedom second. Every boon must belong to Hermes.

Decision summary

Best package	Lucky Blessing / Fortune's Child / Seven-Pipped Gem
Alternative	Lucky Blessing / Fortunate Spells / Blast of Motes
Eligible domains	Trickery, Travel, Community, Liberation, Luck

Demidius is a level-17 Charisma-based Oracle, probability controller, party leader, buffer, dispeller, and Blessed of Hermes. This ranking treats Hermes's campaign domains as a hard eligibility rule. Raw power that does not fit those domains is excluded.

If the acquired gifts occupy obedience slots, the primary package is complete except for tier 1. If they remain separate divine gifts, use the additive package. Swap Blast of Motes for Invoke Uprising when hostile mind control is the campaign's greatest threat.

Prepared 22 July 2026 | Pathfinder 1e | Campaign-specific analysis

Rules frame

The campaign allows a custom obedience assembled from published boons: tier 1 must stay tier 1, tier 2 must stay tier 2, and tier 3 must stay tier 3, while source deity, category, and prestige path may be mixed. This guide adds the required domain-fit filter.

Admissible domains: Trickery, Travel, Community, Liberation, Luck

The printed action, uses, duration, target restrictions, bonus type, descriptor, and other mechanics remain intact unless the GM approves a change. The normal obedience feats generally grant boons at 12, 16, and 20 Hit Dice; prestige classes can accelerate access.

Rating scale

S: defining option. **A:** excellent. **B:** useful but narrower, redundant, or less efficient. Plus and minus signs distinguish choices inside a grade.

Already acquired divine rewards

OWN	S	Fortune's Child Chaldira - Sentinel 2 Fit: Luck Acquired - printed tier 2. Increases every luck bonus Demidius receives by 1. It is a foundation of the current build and stacks with Fate's Favored under the campaign ruling.
OWN	S+	Seven-Pipped Gem Nivi Rhombodazzle - Exalted 3 Fit: Luck Acquired - printed tier 3. Immediate-action post-roll luck. At level 17 the campaign engine yields +10 on an ordinary d20 or +19 on Gambling and Sleight of Hand, with Charisma-modifier uses per day.

Acquired rewards are graded in place. They are not automatically assumed to consume obedience slots; that is a campaign ruling the GM must settle.

Tier 1 - Top Five

Tier 1 is about repeatable utility and thematic foundations. At level 17, flexibility matters more than low spell level.

1

A+

Lucky Blessing

Chaldira - Exalted 1 | Fit: Luck, Community

Divine favor 3/day, blessing of luck and resolve 2/day, or prayer 1/day. Directly feeds the luck engine and can support the whole party.

2

A

Gambler's Essentials

Nivi Rhombodazzle - Evangelist 1 | Fit: Luck, Travel

True strike 3/day, augury 2/day, or haste 1/day. Flexible, thematic, and useful in both preparation and combat.

3

A-

Lucky Miss

Chaldira - Sentinel 1 | Fit: Luck, Trickery, Travel

Blurred movement 3/day, self-only blur 2/day, or blink 1/day. A strong lucky-escape defense with excellent thematic fit.

4

B+

Liberation

Cayden Cailean - Evangelist 1 | Fit: Liberation, Trickery

Liberating command 3/day, knock 2/day, or dispel magic 1/day. Useful escape, access, and magical problem-solving.

5

B+

Traveler's Tricks

Desna - Evangelist 1 | Fit: Travel

Longstrider 3/day, darkvision 2/day, or phantom steed 1/day. Reliable travel utility, though less decisive in a level-17 fight.

Tier 2 - Top Five

Tier 2 contains the build-shaping engines. These rankings weigh both domain purity and how often the boon changes play.

1

S

Fortune's Child - ACQUIRED

Chaldira - Sentinel 2 | Fit: Luck

Increases every luck bonus Demidius receives by 1. The best personal Luck-domain choice and already part of the character.

2

A+

Fortunate Spells

Chaldira - Exalted 2 | Fit: Luck, Community

Increases luck bonuses from Demidius's spells and spell-like abilities by 1. It stacks with Fortune's Child and makes the party's luck better.

3

A

Gambler's Egress

Nivi Rhombodazzle - Evangelist 2 | Fit: Travel, Liberation, Luck

Litany of escape 3/day as a swift-action spell-like ability, targeting Demidius or an ally. Excellent rescue action economy.

4

A-

Alleyport

Milani - Exalted 2 | Fit: Travel, Liberation

Once/day swift-action dimension door, but departure and arrival must be in tight spaces. Powerful and terrain-dependent.

5

B+

Treacherous Mirage

Besmara - Exalted 2 | Fit: Trickery

Once/day false vision or mirage arcana, changeable with concentration and lasting until replaced or dismissed. Excellent strategic deception.

Tier 3 - Top Five

Tier 3 is the capstone. These abilities should justify the slot in epic and mythic play, not merely imitate a routine spell.

1

S+

Seven-Pipped Gem - ACQUIRED

Nivi Rhombodazzle - Exalted 3 | Fit: Luck

The defining post-roll certainty tool. It is the strongest Hermes-domain capstone for this build and is already acquired.

2

A+

Blast of Motes

Desna - Exalted 3 | Fit: Luck, Community

A healing channel grants allies a 10% miss-chance reduction and turns damage-die results of 1 into 2 for up to 6 rounds. Grants a healing-only channel 1/day if needed.

3

A+

Invoke Uprising

Milani - Evangelist 3 | Fit: Liberation, Community

Detects nearby charm, compulsion, and possession, then grants a new save 3/day as a swift action with a Charisma-based sacred bonus.

4

A

Rally Crew

Besmara - Exalted 3 | Fit: Community, Travel

Once/day, allies within 60 feet gain +10-foot speed and heroism for 1 hour/Hit Die and ignore water or weather penalties on benefited rolls.

5

A-

Liberation

Arshea - Mystery Cultist 3 | Fit: Liberation

Freedom 1/day. A direct answer to imprisonment, grapples, paralysis, petrification, and other restraints.

Selection and order

Primary recommendation

Lucky Blessing / Fortune's Child / Seven-Pipped Gem

Alternative recommendation

Lucky Blessing / Fortunate Spells / Blast of Motes

If the acquired gifts occupy obedience slots, the primary package is complete except for tier 1. If they remain separate divine gifts, use the additive package. Swap Blast of Motes for Invoke Uprising when hostile mind control is the campaign's greatest threat.

Options removed by the domain rule

- Zura's Vampire Queen's Mystique is excluded: a raw Charisma increase does not fit any recorded Hermes domain.
- Desna's Starlit Caster is outside the top five: spell penetration and starlight are only an indirect Travel fit.
- Do not purchase Fortune's Child or Seven-Pipped Gem a second time if existing gifts are separate from the obedience slots.

GM decisions before locking the package

1. Do Fortune's Child and Seven-Pipped Gem occupy tiers 2 and 3, or are they separate Hermes gifts?
2. Does the campaign's category mixing remove source-patron moral baggage while retaining printed mechanics?
3. Does the normal 12/16/20 Hit Die boon schedule apply, or is access accelerated?

Practical order

At the next available tier-1 selection, take Lucky Blessing. If acquired gifts occupy their printed tiers, keep Fortune's Child and Seven-Pipped Gem. If they are separate, take Fortunate Spells at tier 2 and Blast of Motes at tier 3; use Invoke Uprising instead when domination and possession are common.

Sources and boundaries

Mechanics were checked against the Pathfinder 1e Archives of Nethys. The campaign's mix-and-match permission is a house rule; printed obedience feats normally preserve patron and category requirements. The following source pages contain every ranked boon in this guide.
